Khushi Gautam

I am a second year undergraduate student. I have a good experience in web development and like to contribute on various open source projects in the organization like creative commons and AnitaB.org. I have also made some of my projects during my learning process.

PERSONAL PROJECTS

Jigdise (01/2021)
- This is a multiplayer board game app which is a virtual version of English Poker game Yahtzee. It's my hackathon project which is conducted by MLH.

Img Square (10/2020)
- It is an app for detecting the awareness in the online classroom as whether the students are attentive the whole time or not by uploading the recorded video of the class at the website.
WorldRanks (12/2020)
- This app will provide you the ranks of every country.

Periodo (12/2020)
- This app is basically built for tracking the periods for young girls. which tells your next period date and helps you to remind it.
